Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/579,397	Applicant(s) OKAMOTO ET AL.	
	Examiner SHIN-HON CHEN	Art Unit 2431	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 1-24 have been examined.

Claim Objections

2. Claims 1-17 are objected to because of the following informalities: Claims 1-17 are not clear as to what is being claimed (method, system, device, or computer readable storage medium). Applicant is advised to specifically claim either a method, system, device, or computer readable storage medium and write all necessary information within independent claims to assist the examiner in understanding what is actually claimed. Furthermore, the dependency of claims should be carefully applied to avoid confusion (e.g. claim 6 appears to be independent claim, yet refers to claim 1). Appropriate correction is required.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-16 and 25-32 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pedlow, Jr. et al. U.S. Pat. No. 7218738 (hereinafter Pedlow).
5. As per claim 1-16 and 25-32, Pedlow mainly disclose a method of partially encrypting a data packet by using a program map table to determine specific sets of data to be encrypted and

Art Unit: 2431

omitting certain other bits for encryption to allow other types of encryption or no encryption to be applied on the other set of data (Pedlow: abstract and column 3 lines 52-67: selective encryption encoder). Pedlow does not explicitly disclose identical method as claimed in claims 1-17 and 25-32. However, it would have been obvious to one having ordinary skill in the art to apply partial encryption to omit certain data from encryption because it increased enhanced security by making encryption process more complicated and unpredictable.

Response to Arguments

6. Applicant's arguments filed on 2/19/10 have been fully considered but they are not persuasive.

Regarding applicant's remarks, applicant mainly argues that the prior office action did not articulate why it would have been obvious to one having ordinary skill in the art to modify the teachings of Pedlow to apply partial encryption to omit certain data from encryption. However, the examiner indicated that the partial encryption is well known in the art to achieve efficiency and complexity of encryption process. Furthermore, the examiner believes that certain claims were not written to reflect inventive concept. Therefore, applicant's is welcome to contact the examiner to resolve issues and expedite prosecution.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SHIN-HON CHEN whose telephone number is (571)272-3789. The examiner can normally be reached on Monday through Friday 8:30am to 5:30pm.
